Diphtheria has made its appearance in Virginia and Winnemucca.

Geo. Myers will use the building formerly occupied by Geo. Davis, as a store house.

Miss Emma Leet, who has been visiting in California, is expected home this week.

Jacob Muller is constantly adding to his large stock of hardware and groceries.

Lost—A black onyx pin with pearl set in gold leaf. The finder will please leave the same at this office.

The race track is in the best of condition, and the horses in training are developing speed rapidly.

Two mules loaded with a prospector's outfit left for Pine Nut yesterday accompanied by the prospector.

Bricks are being hauled to the vacant lot opposite the Mint, and it looks as though a building would be put up there soon.

Senator Riekey arrived in Carson yesterday morning from San Francisco. He reports Mrs. Riekey as improved in health.

The APPEAL acknowledges the receipt of the American Agriculturist, published by Orange Judd & Co, New York. It is a splendid publication.

The axle cutter seems to have about as good a thing as the Mint. He fixed four rigs yesterday after 10 o'clock, making \$12.50. Ad seemed pleased with his work.

The Ormsby County tax roll was printed in San Francisco because the APPEAL job office, which had the contract, was so crowded with work, that it could not be done here in the stipulated time.

The Emperiums are putting in an hour or two daily in practice. This is the only week they have practiced since the first game at Steamboat. They have just arrived at the conclusion they needed it.

Properly dressed and properly trained, a woman presents as graceful an appearance on a bicycle as she can off. And at the rate young women are taking up the sport in Carson they evidently think so.

The postal clerks on the mail trains should exercise a little more care in handling the mails. Several letters addressed to this office from San Francisco have recently been carried by Carson to Virginia, and returned in the evening.

Stewart's mining bill only passed one branch of Congress last session, so it did not become a law, and there is no change in the time or date for doing annual assessment work. Therefore the mining laws are the same as they have been for some years past.

Fred Wilson of Tuscarora, and State Supt. Ring, who crossed the plains together over 30 years ago, met in Elko several days ago for the first time since their arrival on the coast. As may be supposed, they spent the whole of the evening recalling the incidents of the trip.

A little daughter of A. Frechette was struck on the nose yesterday with a rock thrown by a small Indian. Dr. Herick attended the child, and found the wound so large that he had to take a stitch in it. There is a small gang of these dusky semi-breeds in Carson who ought to be summarily dealt with by the proper authorities.

## Wedding Bells.

TORREY-ON-FRENCH. In Carson City, August 12th, 1891, by the Rev. Mr. Bird, at the residence of the bride's parents, James D. Torreyson to Miss Vallie E. French, both of Carson City, Nevada. No cars.

The contracting parties are both well known in Carson. The groom is Attorney General of Nevada and the bride has been a teacher in the Carson schools. The wedding was strictly private, none but relatives being present. Mr. George D. Oliver acted as groomsmen and Miss Mabel French as bridesmaid. At 1 o'clock Mr. and Mrs. Torreyson departed by private conveyance for Tallac, Lake Tahoe, where they will spend a few days, and will then go to Santa Cruz and Monterey. The happy pair received many elegant presents from their large circle of friends. The APPEAL wishes Mr. and Mrs. Torreyson a happy and prosperous married life.

## Visiting the Messiah.

The seven gaily dressed Cheyenne Indians that were on Tuesday morning's express train on their way to the Walker Lake Reservation, where they intended to pay their respects to Jack Wilson, better known as the Messiah, returned as far as Mason Valley yesterday, where they found Wilson earning an honest dollar pitching hay. Four Arapahoe Indians visited Wilson two weeks ago and presented him with many presents and about \$100. Evidently he is turning his fame to good account. Our informant states that one of the chiefs who had a half famished look on his face, was offered a piece of cheese by Conductor Deacon Gale, of the C. & C. The Deacon was rewarded with a withering glance and was informed that the digestive organs of an Indian did not warrant his accepting the hospitality of the white man.

## The Smallpox.

Dr. Lee reports the two sick Indians as getting along nicely, and no indications of any new cases. He vaccinated twenty-seven people at the Institute yesterday morning. Superintendent Gibson has telegraphed the following message to the Commissioner of Indian Affairs: "No new cases. Two patients removed to pest-house inside of thirty hours from development of disease. Dr. Lee is in daily attendance, has vaccinated all inmates and has thoroughly disinfected and fumigated the building."

## Indian Killed.

## A RAILROAD FOR TAHOE.

Lucky Baldwin Heading a Big Improvement Scheme.

A deal is in progress which is expected to result in the construction of a railroad between Truckee and Lake Tahoe. E. J. Baldwin who is one of the projectors says:

"I expect the railroad will be built, but nothing is as yet definitely fixed upon. Lake Tahoe has had such a rush this summer that the railroad people have seriously considered the construction of a branch line. I had a talk with Colonel Crocker about the matter when he was at the lake. He said he considered that the line was one that would pay, but that the Central Pacific was in such a condition that it could not build it unless the Government would agree to defer interest payments for fifty or a hundred years."

"It is now planned to form a company to construct the line. The road has been surveyed and measures fifteen miles. Moody says it will cost \$200,000 and I believe it would pay. During the last season if the hotels had had accommodations for 500 guests their would have been no trouble in getting them. Telegrams came from all over the State asking for rooms and we were absolutely unable to grant the requests."

"I have just sent carpenters up there to put up fifty more rooms on my hotel, and next year, particularly if the railroad gets through, I will begin the construction of a modern summer hotel."

Ten years hence, Tahoe will be the summer resort of California and land there will be worth money. An auction sale of building lots for summer cottages is soon to be held by San Francisco parties, who will run an excursion to the spot—a point known as Emerald Bay.

## The Creamery.

A force of men are at work at the old steam laundry, removing the large steam boiler which is to be conveyed to the site of the creamery near Danberg's. Billy Elliott has the contract for the brick and stone work to receive it. It will probably be in place by the latter part of the month.

## Sickness Among Children.

Especially infants, is prevalent more or less at all times, but is largely avoided by giving proper nourishment and wholesome food. The most successful and reliable of all is the Gail Borden "Eagle" Brand Condensed Milk. Your grocer and druggist keep it. 2t
